

Friends of Juniper Hill Field

Today the fields are rich in grass,
And buttercups in thousands grow;
I'll show the world where I have been –
With gold-dust seen on either shoe.

What We're Up To

18 August, 2023

We have been working hard following many avenues to stall the development on Juniper Hill Field and have been learning everyday. Many, many people near and far away have been volunteering their expertise to help us in this endeavour and we are very grateful to all of them. And also to everyone who has registered their support and offered their thoughts about the field and what it means to them.

There are some members of our community who have been enjoying Juniper Hill Field for 30, 40, and even 50 years. **We are asking everyone to send us memories of walking through the field over the past decades; tell us about when you first discovered it, what paths you took, and what you saw up there.**

Send us a message on our newly updated website where we have added new information. We also now have an [instagram profile](#)
https://www.instagram.com/save_juniper_hill_field/

If you have any pictures from any of your walks, please share them with us and we can post them for others to see the beautiful place that we are trying to protect.

[Voices in the Field](#) continues to grow longer and louder.
